

DEPENDABLE STARTS.

INTELLIGENT PROTECTION.

Motor starters and digital control panels
for agriculture, water supply and industry.

DOL MOTOR STARTER

440 V | Three phase | Adjustable overload relay

Relay ranges: 6-10 A / 9-14 A / 11-18 A / 13-22 A

02 / MOTOR STARTING

STAR-DELTA STARTERS

A controlled start for suitable three-phase pump and motor applications.

STAR / START

CHANGEOVER

DELTA / RUN

Star-delta starting reduces starting current compared with direct-on-line starting on the same suitable motor. The motor starts in star and changes to delta for normal running.

■ **Coordinated motor control**

Line, star and delta contactors operate with an overload relay.

■ **Select for the motor**

Use a six-terminal motor rated for delta operation at the supply voltage.

03 / DIGITAL CONTROL

SMART PUMP CONTROL

Single-phase control and three-phase control with water-level management.

AI-101

SINGLE PHASE | 1 / 1.5 / 2 HP

Digital volt / amp display

Overload & dry-run protection

Low / high voltage protection

OFF timer facility

AI-900 PC-WLC

THREE PHASE | PHASE CHANGE + WLC

Automatic phase change facility

Water level controller (WLC)

Overload & dry-run protection

High / low voltage protection

For submersible pumps, borewell motors and water-supply applications.

04 / THREE-PHASE PROTECTION

ELECTRONIC PANELS

Two enclosure formats. Clear controls. Practical motor protection.

AI-205

STANDARD ENCLOSURE

AI-205M

METAL BOX

PROTECTION AT THE CORE

- **High voltage protection**
Helps guard against excessive supply voltage.
- **Overload & dry-run protection**
Monitors overload and no-load conditions.
- **Single phasing protection + OFF timer**
Supports safer operation and timed stopping.

05 / AGRICULTURAL APPLICATIONS

AI-300 AGRI AUTO

Intelligent three-phase motor control for agricultural pump applications.

AGRICULTURE | UP TO 7.5 HP

Automatic phase preventer

Dry-run / no-load protection

Overload protection

1-year warranty

THE RIGHT CONTROL. FOR EVERY APPLICATION.

From reliable motor starting to intelligent pump protection, explore the KVP switchgear and control-panel collection.

MOTOR STARTERS

DOL / Star-delta

DIGITAL CONTROL PANELS

Single phase / Three phase

AGRICULTURAL CONTROL

AI-300 Agri Auto / Up to 7.5 HP
